Dr. Allyson Brooks
 State Historic Preservation Officer
 Office of Archaeology and Historic Preservation
 Washington Department of Community,
 Trade and Economic Development
 P.O. Box 48343
 Olympia, Washington 98504

Dear Dr. Brooks:

**CULTURAL RESOURCES REVIEW (CRR) FOR THE PRELIMINARY DESIGN FOR
 100-D AREA BURIAL GROUNDS AND REMAINING SITES, HANFORD SITE,
 RICHLAND, WASHINGTON (HCRC#2005-100-024)**

Enclosed is a CRR completed by Bechtel Hanford, Inc. (BHI) cultural staff on behalf of the U.S. Department of Energy, Richland Operations Office (RL). The subject project is located in the 100 Area of the Hanford Site, Richland, Washington. Information presented in the CRR indicates no archaeological sites are located within the project area; therefore, RL finds the project will not affect historic properties. Due to the close proximity of the waste sites to the Columbia River, a BHI archaeologist will monitor activities during remediation, and Tribal cultural staff will be invited to participate in these activities. Pursuant to 36CFR 800, we are providing documentation to support these findings, and to involve your office as a consulting party in the National Historic Preservation Act, Section 106 Review process. Please provide comments within 30 days of receipt of this letter.

If you have questions, please contact me, or your staff may contact Doug S. Shoop, Assistant Manager for Safety and Engineering, on (509) 376-0108.

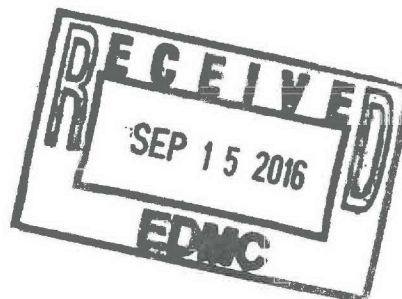

Sincerely,

for Keith A. Klein
 Manager
